Mr. Moore,

Attached is the One Time Shipment form we discussed, below is the link to the webpage which may help with understanding regarding OTS program.

I do need to correct what I discussed with you over the phone. Once you receive the new temporary EPA ID with the OTS, please get your contractor to submit manifest discrepancies to us and the TSDF for the any Hazardous waste shipped under the past EPA ID. This will ensure the waste is correctly affiliated to the OTS-Superfund waste remediation activities. If you have any further question, please let me know. For questions on the OTS in particular, you may call Linde at 512-239-1607.

Thanks,
